DURAMAX Building Products

All Weather Durable Outdoor Building Products

Classic Series

SideMate | YardMate | DuraMate | Woodbridge

In choosing a shed, whether for storage or any other use; the most important things to look for are strength, durability, size and value for money. DuraMax Vinyl Sheds offer by far the best combination of all these features. As the name suggests, DuraMax sheds are built to last. They will not rust, dent, rot, or mildew and they never need painting. The sheds are designed to handle 20 lbs per square foot of snow load and wind-tested for 115 mph winds. The wall columns, reinforced with steel, allow for easy mounting of shelves or garden tools. Our Classic line of sheds are loaded with features and are available in the broadest range.

All-Weather Durable Vinyl Sheds • Low Maintenance • Won't Rust, Rot, Dent or Mildew • Never Needs Painting
Vinyl is Fire Retardant • Easy Assembly • Industries Best 15 Year Limited Warranty

DURAMAX Building Products

Stronglasting Outdoor Storage Solutions

A Product of USP US POLYMERS INC

Metal Series

Colossus | Titan | Riverton | Pent Roof

Colossus

One of the largest metal sheds on the market, the 10 x 8' Colossus Metal Shed provides 552 cubic feet of storage space. This shed is large enough to store bikes, mowers and other recreational, lawn and garden equipment and supplies. It's reinforced groove walls are 20% thicker than flimsy conventional metal sheds.

Titan

Designed with aesthetics in mind, our 8' x 6' offers 317 cubic feet of storage space - enough to meet the yard storage needs of the average home. It's contemporary design will beautify your backyard or garden. It is also fire retardant and tested to withstand high wind loads as well over 1000 pounds of snow.

Riverton

Our economical 6' x 4' offers 149 cubic feet of storage space yet is compact enough to fit in even the smallest yard. It's modular design makes it easy to extend to larger sizes as your storage needs grow. It's tested to withstand high wind loads as well almost a quarter ton of snow.

Pent Roof

The Pent Roof is an affordable shed with a compact design. It's spacious enough to store most garden tools and has large double entry doors for the bigger items. A strong galvanized steel structure insures longevity and it's two vents increases air circulation. The pent roof design provides for easy water run off. The roof design allows you to place the shed along side a building, a fence or simply stand alone.

Stronglasting Outdoor Storage Solutions

Insulated Bldg. Series

Flat Roof | Gable Roof | Flat Roof w/ Wall Mounted Skylight

DuraMax Modular Housing introduces our three energy efficient Modular Insulated Building. Each module is manufactured with durable coil coated galvanized steel inner and outer skin with a fire-retardant CFC Free Poly-Urethane insulation.

These buildings are ideal for all weather conditions and can be used for various purposes, such as additional living space, emergency shelter, office, hobby room, secure storage space, tool room, or an equipment enclosure. Each building is modularly designed expansion and a true DIY installation in mind. Both Flat & Gable roof insulated building includes a single window kit and a foundation kit. The foundation kit is made of galvanized metal and provides a base for installing the building on almost any flat surface.

The insulated building are shipped on wood crates with simple, clean and safe assembly. All parts are pre-cut, drilled and numbered for ease of assembly.

ALL-Weather Durable Insulated Bldg. • Low Maintenance • Modular Design • Fire Retardant PU
All Parts are pre-cut, drilled & numbered for ease of assembly 30 lbs./sqft snow load • Industries Best 7 Year Limited Warranty
