DuraMax Stronglasting™ Metal Sheds

DuraMax metal sheds are **Stronglasting™**, which means they are not just **strong** and **durable**, they are also **low-maintenance**. They are the strongest steel outdoor sheds you can find today. Most metal sheds have thin, flimsy walls that dent and ding soon after you assemble them. DuraMax sheds have **thicker steel walls** and a special rib design for **greater strength** and **dent resistance**. Their superior strength allows us to make them wider—and 8" taller—than other metal sheds of comparable size. You get a tall walk-in shed with much more room for storage. They are also modular so you can easily extend their size as your storage needs grow.

Why DuraMax metal sheds? Because they are **stronger and more solidly built than other metal sheds** yet still priced right. A **Stronglasting™** DuraMax metal shed overcomes the flimsiness of common metal sheds and gives you the best metal shed available today.

- 15% More Storage Space than Conventional Metal Sheds
- 8" Taller than Conventional Metal Sheds
- Wider Than Conventional Metal Sheds of Comparable Size
- Reinforced Groove Walls are Solid, not Flimsy or Wobbly
- Walls are 20% Thicker so they are Much More Dent Resistant
- Wide Double Sliding Doors for Mowers and Other Equipment
- Door Handles have Eyelets for Padlock
- All the Hardware is Included for Easy Assembly, Yet Needs Only Half as Many Parts as Conventional Metal Sheds

DuraMax Stonglasting Buildings

10' Colossus Metal Shed Series

Item #	Description	Exterior Dimensions			Door Dimensions		Weight
		Width	Depth	Height	Width	Height
