

**DURAMAX**  
Building Products

*Engineered For The Southwest Sun™*

Vinyl  
**PATIO COVERS**

Maintenance-Free Vinyl Patio Covers Give You A Lifetime Of Care-Free Use. Vinyl Patio Covers Will Not Rot, Crack, Peel or Ever Need Painting.

This twenty-foot patio structure shades the entire sitting area.

*Unlike Aluminum Materials, Vinyl Will Not Heat Up Under The Sun, And Is Quiet In The Rain.*

*DuraMax Vinyl is truly the product of choice by Landscape Designers, Architects and Homeowners for a Maintenance-Free Patio Cover.*

*Impressive Look & Feel*

Vinyl Patio cover shades this elegant setting.

All patios have been engineered to meet State and Local Engineering Standards.

This garden comes to life with the addition of a Vinyl Patio Cover.

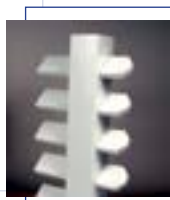

Patio Covers are available with railing and lights.

*"All Patio Covers Come With A Lifetime Warranty Against Rotting, Defects, Termites Or Corrosion."*

Construction is all Route-and-Lock so there are no unsightly screws and brackets that can rust or corrode. These routed patio structures are steel-reinforced and incredibly strong.

Available Colors Include WHITE and TAN

# Why DuraMax?

For over 20 years DuraMax, a division of US Polymers Inc., has been manufacturing vinyl building products in the Southwest. Our vinyl patio covers has been specifically designed to meet the demanding weather conditions of the hot sun in the region.

## Here are the Key Advantages you'll get by choosing DuraMax:

- Our Proprietary DuraResin vinyl material is used in all our patio covers. DuraResin boasts over 12 parts of TiO<sub>2</sub> (Titanium Dioxide) and highly perfected UV inhibitors that can deliver an extra 25% durability under the hot Southwest sun.
- We use a state of the art coextrusion technology to give superior durability and impact strength that meets ASTM F964 Standards for vinyl patio covers extruded in our factories.
- A Route-and-Lock construction ensures that all parts are interlocked and will never fall apart.
- DuraMax has thicker walls for added strength and durability.
- Unlike many vinyl patio covers, DuraMax does not use nails that rust, brackets that crack or unsightly screws that are an eyesore on your patio covers.

DuraMAX Building Products are 100% recyclable and reusable, they will never end up in a landfill. In fact, we recycle over a million pounds of Polyvinyl every year!
